## Our Solution for Cleaning Up the “Great Pacific Garbage Patch”

Brainstorming (list your ideas here)

Go back and review your ideas and discuss in your group. Highlight your best solutions. Choose one of your solutions to develop into a plan.

The solution we are going to develop is:

What will you include in your presentation?

Name or title

Explanation of the solution using background data to support your reasoning (claim)

What are factors or problems you need to consider? (time, cost, size of problem, resources)

Who needs to be involved in putting your solution into action?

How will you put your solution into action?

What will be the result of your solution? (What will the impact be on Earth’s systems?)
