

WHAT'S IN A SYSTEM

Teacher Scenarios

Practice Round: You see a lion standing on a rock. Which systems are interacting?

1. On a sunny day, you see a puddle of water disappear.
2. Lava from a volcano has destroyed a forest.
3. A flock of geese is flying south.
4. A penguin finishes hunting for a fish and stands on a rock.
5. A severe rain storm is causing the Mississippi to flood its banks.
6. A plant is wilting and turning brown.
7. An earthquake has damaged homes in California.
8. The grey whale is migrating North for the summer.
9. The farmer is planting his field of corn.
10. Waves are crashing on the shore.
11. An underground aquifer is providing drinking water for the town.
12. A noise startles the ducks on the pond, so they fly away
