

IMAGES FOR *WHAT'S INSIDE AN ELEMENT?*

Periodic Table of Elements

The periodic table is color-coded by groups: Alkali Metals (pink), Alkaline Earth (orange), Transition Metals (yellow), Basic Metals (light green), Semimetals (medium green), Nonmetals (light blue), Halogens (medium blue), Noble Gas (dark blue), Lanthanide (purple), and Actinide (red).

Here are a couple of examples of the inside of an atom. There are many ways this can be represented.
