The STEM Equation

Join us online for a day-long, nationwide conversation around pathways to success through STEM and how each of the STEM categories work together to shape the future of education. Find new content and engage LIVE with STEM experts at the following times using #TheSTEMEquation on Twitter!

10 AM ET The Formulas for Success

The world premiere of two NEW career profiles introducing your students to varied career opportunities in engineering and manufacturing: www.siemensstemday.com

12 PM ET The Current Conversation

An interactive twitter chat gives you the chance to discuss the state of STEM learning with Siemens and Discovery Education STEM experts; #TheSTEMEquation

2 PM ET The Prime Resources

Be the first to dive into five brand new activities for grades 9-12, which explore diverse, engaging topics from body systems in space to linear equations to coin batteries.

4 PM ET The Power of Possibility

Don't miss it! We're announcing the winner of the #PowerofPossibility Sweepstakes LIVE on Twitter and Facebook at 4pm ET! Find us using #TheSTEMEquation

Be among the first educators to ask a question or post a photo using #TheSTEMEquation combined with #giveaway to receive a gift card of up to \$25!

Recipients shall not accept this gift card if accepting such gift card is prohibited by any policies or procedures with which such recipient or recipient's employer is required to comply.
